## IQAC - Feedback Analysis Report

To assess the feedback of students, a student feedback form was circulated, covering 15 aspects associated with the performance of the college. Overall 84% of the respondents agreed or strongly agreed that the teaching-learning process at MEC is very good. 99% of the respondents believe that the efforts made to inculcate life, soft and employability skills make the students ready for the real world. Furthermore, 89% of the students agree that the teaching methods of the teachers are student centric. 88% of the respondents reported that teachers were able to identify their strengths, and 82% reported that teachers were able to identify their weakness and offer help. In the more specific context of classroom teaching and evaluation too, the feedback was positive. 90% reported that 70% or more of the syllabus was usually covered in class and 95% reported that teachers prepare well for the classes satisfactorily or thoroughly. Overall, 91% reported that the teaching was good. Very good or excellent. 90% of the students considered evaluations to be usually or always fair. The following charts summarize parameter-wise responses received.
